General Design Details & Planning Principles

Alleys as Drive Aisles	4
Create Urban Parking Standards	4
Create Parking Lot Synergy for Small Parking Lots	4
Layout Parking Spaces Along the Long Dimension of the Lot	4
Locate ADA Loading Areas in Non-Parking Space	4
Tree Planters as Wheel Stops	5
Review & Adjust Parking Standards and Land Use Policies	5
Simplify Traffic Patterns, Ease Access	5
Implementation	5

Spreadsheet Statistics

Existing Parking vs. Short-Term Parking Solutions Net & Percentage Increase	6
Long-Term Parking Solutions Net & Percentage Increase	6.1
Existing Parking Standards Comparison - West of Grand	6.2
Existing Parking Standards Comparison - East of Grand	6.3
Short-Term Parking Standards Comparison - West of Grand	6.4
Short-Term Parking Standards Comparison - East of Grand	6.5
Long-Term Parking Standards Comparison - West of Grand	6.6
Long-Term Parking Standards Comparison - East of Grand	6.7
Resident Parking Statistics	6.8
	6.9

Short-Term Solutions Supported by the Steering Committee

1. Lower Meter Fines if Paid in Short Period	7
2. Distribute ADA Parking Spaces	7
3. Encourage Stacked Employee Parking	7
4. Follow the Demolition Review Process	8
5. Encourage Shared Use of First Divine Science Church Parking Lot	8
6. Clearly Mark All Pedestrian Crossing	8
7. Limb Up Street Trees to Improve Lighting in District	9
8. Install Standardized Signage on Public Parking Lots	9
9. Change Hartford & Juniata to 2-way Streets to Improve Access to Parking Lot	9
Street Lighting & Tree Canopy Drawing	9.1
10. Implement Angled Parking on Arsenal Along Tower Grove Park	10
11. Improve City Owned Parking Lots	10
12. Encourage Immediate Parking Utilization of Commerce Site	11

Short-Term Solutions Rejected by the Steering Committee

13. Change Street Sweeping Schedule	12
14. Change Residential Trash Collection Dumpsters (photo)	12
15. Change Size of Parking Stall Requirements	13
16. Consolidate Bus Stop Locations	13
17. Implement Angled Parking on Side Streets	15

Medium-Term Solutions Supported by the Steering Committee

18. Create a New Bus Loop Connection	16
19. Design Right-of-Way Improvements	16
20. Conduct a Parking Refinement Analysis of Street Parking & No Parking Zones (photo)	16
21. Install Curb Bump-Outs to Enhance Pedestrian Crossings on Grand	17
Drawing of Curb Bump-Outs & Solution #6 Marked Pedestrian Crossing	17.1
22. Install Historic Light Standards to Enhance Security in District	18
23. Reduce Existing Curb Cuts to Increase Street Parking	18
24. Allow Flexible use of Homes on Side Street to Install Parking in Rear Yards	18
25. Create Parking Lot Synergy (photos)	19
26. Improvements for Residential Parking	23
27. Low-Interest Loans for Residents to Implement Parking	23
28. Shared Parking Valet Service	23

Medium-Term Solutions Rejected by the Steering Committee

29. Residential Property Owners Lease Parking Spaces to Business District (photos)	24
30. Strengthen Architectural Design Standards in the Business District	25
31. Implement the “Tan My” Parking Solution on Side Streets Where Possible (photos)	27
32. Remove Mid-Block Pedestrian Crossing & Install Crossings at Juniata & Connecticut	29
33. Shared Parking Use at St. Pius Church	30

Long-Term Solutions Supported by the Steering Committee

34. Update the Commercial District Redevelopment Plan’s Architectural Design Guidelines	31
35. Entry Monument Gates Required to Define Edge of District	31
36. Remove Non-Compatible Uses in the Business District	31
37. The Commerce Bank Site (photos)	32
Redevelopment of Eastern End of City Block 1463	33
38. Redevelopment Potential at the SW Corner of Juniata and Grand	34
Solution #12 Utilize Existing Commerce Bank Lot, Option #1	34.1
Solution #37 Redevelopment of Commerce Bank Lot, Option #2	34.2
Solution #38 Large Scale Mixed-Use Infill Potential, Option #3	34.3
Long Term Redevelopment Potential	35
Reasons For Planning for Growth	35
Parking Space Projection	35
39. House Moving Instead of Demolitions	36

Long-Term Solutions Rejected by the Steering Committee

40. Redevelop Small Buildings on Grand - Add Parking Lot in Rear Yards (photo)	37
Solution #40 Redevelopment Behind Small Buildings & #25 Parking Synergy	37.1
41. Structured Parking in Rear Yards	38
42. Structured Parking with New, 20’ Deep Occupied Office or Other Use on Street Front	38
43. Structured Parking for City Block with Highest Density (photos)	39
Reasonable Compromise	40
Evolution Change	40
The Parking Garage	40
